

STRUCTURE
OF
SURFACES AND INTERFACES
IN THIN FILMS

Thesis submitted for the
DEGREE OF DOCTOR OF PHILOSOPHY (SCIENCE)
of the
UNIVERSITY OF CALCUTTA

By
Jaydip K. Basu

Surface Physics Division
Saha Institute of Nuclear Physics
1/AF, Bidhannagar
Calcutta-700064
March, 2000

Contents

1	Introduction	1
1.1	Surface Characterisation	4
1.1.1	Surface Diffraction	4
1.1.2	Conventional Surface Characterisation Techniques	7
1.1.3	New Surface Characterisation Techniques	12
1.2	Thin Film Deposition Techniques	23
1.3	This Thesis	25
2	Experimental Techniques	27
2.1	Langmuir-Blodgett Deposition Technique	28
2.1.1	Historical Introduction	28
2.1.2	Preparation of Langmuir Monolayer	28
2.1.3	Deposition of LB Films	32
2.2	Grazing Incidence X-ray Reflectivity (GIXR) Technique	38
2.2.1	GIXR Setup	38
2.2.2	X-ray Source	38
2.2.3	The Goniometer	40
2.2.4	Sample Mounting Stage	44
2.2.5	The Detector	45
2.2.6	Scan Types	51
2.2.7	Instrumental Effects	53

3	Grazing Incidence X-ray Reflectivity Formalism	58
3.1	Introduction	59
3.2	Basic Formalism	60
3.3	Scattering in Born Approximation	67
3.4	Data Analysis	79
3.5	Appendix I	83
4	Application of Grazing Incidence X-ray Reflectivity Technique	85
4.1	Introduction	86
4.2	Extraction of Small Density Variations in Thin Films : A Scheme Based on DWBA	86
4.3	Extraction of Compositional Profiles of Near-ideal Multilayer Thin Films: A Scheme Based on Born Approximation	94
4.4	Appendix II	102
5	Growth & Structure of Langmuir-Blodgett Films	106
5.1	Introduction	107
5.2	Growth & Morphology of Surfaces & Interfaces	108
5.3	Growth of LB Films	112
5.4	Structure of as-deposited LB Films	115
5.5	Formation of Nanostructures in LB Films	121
5.6	GIXR Studies of CdS Nanostructures Formed in LB Films	125
5.7	Appendix III	133
5.7.1	Capillary wave theory	133
5.7.2	X-ray scattering from capillary waves	138
6	Melting of Langmuir-Blodgett Films	141
6.1	Introduction	142
6.2	Experimental Details	143

6.3	X-ray Scattering Data Analysis	144
6.3.1	Data Analysis Based on EDS Parameter	144
6.3.2	Diffuse Integrated Reflectivity Analysis	151
6.4	Atomic Force Microscopy	155
	BIBLIOGRAPHY	161
	List of Publications	175
