

**ON SOME ASPECTS OF VIBRATIONS IN SOLIDS  
— A GROUP THEORETICAL STUDY**

R 18555

**Dissertation  
submitted for the  
Degree of Doctor of Philosophy (Science) \*  
of the  
University of Calcutta**

**By**

**Prasantakumar Rudra  
Saha Institute of Nuclear Physics  
Calcutta, India**

**April, 1967**

**CONTENTS**

	<b>PAGE</b>
<b>Preface and Acknowledgements</b>	(ii)
<b>List of Symbols and Abbreviations</b>	(viii)
<b>Summary</b>	1
 <b>CHAPTER I</b> - <b>Introduction</b>	 6
 <b>CHAPTER II</b> - <b>Projective Representations of Groups</b> ..	 13
 <b>CHAPTER III</b> - <b>Irreducible Representations of Space Groups</b> ..	 25
 <b>CHAPTER IV</b> - <b>Theory of Invariants and Covariants : Tensor Operators</b> ..	 38
 <b>CHAPTER V</b> - <b>Potential of a Vibrating System</b> ..	 49
 <b>CHAPTER VI</b> - <b>Spin-Lattice Relaxation Rates in Paramagnetic Solids</b> ..	 62
 <b>CHAPTER VII</b> - <b>Effect of Lattice Vibration on Ferromagnetism and a Group Theoretical Study of Ferromagnetic Green's Function</b> ..	 100
 <b>References</b> ..	 107
 <b>APPENDIX</b> - <b>Reprints of Published Papers</b>	
 I. Group Theoretical Method of Deriving the Potential of a Vibrating System, J. Chem. Phys., 40, 2416 (1964)
