

Magnetocaloric effect and related phenomena in rare-earth based compounds

Tapas Samanta

**Experimental Condensed Matter Physics Division
Saha Institute of Nuclear Physics, 1/AF, Bidhannagar,
Kolkata 700064, India**

E-Mail: tapas.samanta@saha.ac.in

**Thesis submitted for the Degree of Doctor of Philosophy in
Science in the Jadavpur University, Kolkata, India**

2009

Contents

Acknowledgement	iv
List of Publications	vi
Presentations in Conferences	viii
Preface	ix
1 Introduction	1
1.1 Brief historical review on Magnetocaloric Effect	2
1.2 Basic theory of determining Magnetocaloric Effect	3
1.3 Measurement techniques of Magnetocaloric Effect	5
1.3.1 Direct measurement	6
1.3.2 Magnetization measurement	6
1.3.3 Heat capacity measurement	7
1.4 Magnetocaloric behavior and magnetic transition	10
1.5 Technological importance of Magnetocaloric Effect	13
1.5.1 Magnetic refrigeration	13
1.5.2 Important Magnetocaloric materials	20
1.6 Fundamental interest of Magnetocaloric Effect	27
2 Experimental methods	35
2.1 Sample preparation techniques	36

2.1.1	Arc melting	36
2.1.2	Sol-gel technique	36
2.2	Sample characterization techniques	37
2.2.1	X-ray diffraction	37
2.2.2	Electron microscopy	38
2.3	Measurement techniques	41
2.3.1	SQUID magnetometer: magnetization measurement . .	41
2.3.2	Heat capacity measurement set-up	44
2.3.3	Set-up for transport/magnetotransport measurement .	48
3	Giant Magnetocaloric Effect in antiferromagnetic ErRu_2Si_2 and Ho_5Pd_2	52
3.1	Introduction	53
3.2	Magnetocaloric Effect in ErRu_2Si_2	53
3.2.1	Sample Preparation and Characterization	53
3.2.2	Experimental Results and Discussion	54
3.3	Magnetocaloric Effect in Ho_5Pd_2	60
3.3.1	Sample Preparation and Characterization	60
3.3.2	Experimental Results and Discussions	60
3.4	Summary	66
4	Influence of domain walls on the Magnetocaloric Effect in GdPt_2	69
4.1	Introduction	70
4.2	Sample Preparation and Characterization	70
4.3	Experimental Results and Discussions	71
4.4	Summary	80
5	Generation of complex magnetic phase diagram and analysis of anomalous magnetotransport behavior of GdRu_2Si_2 using Magnetocaloric Effect	82
5.1	Introduction	83
5.2	Sample preparation and characterization	84
5.3	Experimental Results and Discussions	84
5.4	Summary	98

6	Study of Magnetocaloric Effect in CeRu₂Ge₂ associated with an energy-gap in the ferromagnetic spin wave spectrum	100
6.1	Introduction	101
6.2	Sample preparation and characterization	101
6.3	Experimental Results and Discussions	102
6.4	Summary	109
7	Magnetocaloric effect in Polycrystalline and Nanocrystalline La_{0.125}Ca_{0.875}MnO₃	110
7.1	Introduction	111
7.2	Sample preparation and characterization	112
7.3	Experimental Results and Discussions for polycrystalline sample	112
7.4	Experimental Results and Discussions for Nanocrystalline sample	115
7.5	Summary	118
8	Summary and Future scope of works	121
8.1	Summary	121
8.2	Future prospects	123
