

Fluorescence and NMR Spectroscopic
Studies on Structure and Conformation of
Transcription Activator Proteins: RFXANK
and DNA Binding Domain of RFX5

Thesis Submitted for the Degree of
Doctor of Philosophy (Science)
Of
Jadavpur University
September, 2010
by

Madhumita Chakraborty

Structural Genomics Division
Saha Institute of Nuclear Physics
1/AF, Bidhannagar
Kolkata-700064
India

Table of Contents

| | |
|--|---------------|
| 1) Preface | I |
| 2) Chapter 1: Introduction..... | 1-62 |
| 1.1 Structure of MHC Molecules | 2 |
| 1.2 Function of MHC Molecules | 4 |
| 1.3 MHC II gene regulation and Enhanceosome Complex | 7 |
| 1.4 DNA-protein interaction..... | 17 |
| 1.5 Families of DNA binding transcription factors | 30 |
| 1.6 DNA-Binding Motif..... | 36 |
| 1.7 Protein NMR Spectroscopy..... | 37 |
| 1.8 Motivation of the Study..... | 47 |
| References | 49 |
| | |
| 3) Chapter 2: DNA Binding Studies of RFX5DBD & its Association with RFXANK..... | 63-110 |
| 2.1 Introduction | 63 |
| 2.2 Materials & Methods | 65 |
| 2.3 Results | 81 |
| 2.4 Discussion | 101 |
| References | 106 |

| | |
|--|----------------|
| 4) Chapter 3: Oxidative Modification & Dityrosine Formation in the DNA Binding Domain of RFX5..... | 111-178 |
| 3.1 Introduction | 111 |
| 3.2 Materials & Methods | 113 |
| 3.3 Results | 117 |
| 3.4 Discussion | 127 |
| References..... | 130 |
| 5) Chapter 4: Structural Studies of RFX5DBD: NMR, Molecular Modeling & Molecular Dynamics Simulations Approach..... | 134-170 |
| 4.1 Introduction | 134 |
| 4.2 Materials & Methods | 141 |
| 4.3 Results | 145 |
| 4.4 Discussion | 165 |
| References..... | 167 |
| Concluding Remarks..... | 171 |
| List of Publications..... | 175 |
