

**INTERACTIONS OF QUINONES WITH DNA
BASES: A LASER FLASH PHOTOLYSIS AND
MAGNETIC FIELD EFFECT STUDY**

THESIS SUBMITTED FOR THE DEGREE OF
DOCTOR OF PHILOSOPHY (SCIENCE)
OF
JADAVPUR UNIVERSITY

BY
ADITY BOSE (né CHOWDHURY)

CHEMICAL SCIENCES DIVISION
SAHA INSTITUTE OF NUCLEAR PHYSICS
1/AF BIDHANNAGAR
KOLKATA 700 064

2009

CONTENTS

CHAPTER 1: Introduction	1- 43
1.1 The background	1
1.2 Photoinduced electron transfer	3
1.2.1 History of Photoinduced electron transfer	3
1.2.2 Energetics	3
1.2.3 Theory of electron transfer reactions	5
1.2.3.1 The classical Marcus Theory	5
1.2.3.2 Quantum mechanical aspects	11
1.2.3.3 Distance dependence of electron transfer	13
1.2.4 PET : Rehm Weller approach	14
1.3 Electron transfer in biological systems	18
1.3.1 Protein electron transfer	19
1.3.2 DNA electron transfer	21
1.3.3 Electron transfer involving DNA bases individually	22
1.3.4 Hydrogen abstraction involving DNA bases	24
1.4 Magnetic field (MF) effects on electron transfer (ET)	25
1.4.1 S and T RIPs	26
1.4.2 S-T intersystem crossing (ISC) and mechanism of MF effect	29
1.4.3 MF effect on ET with T precursors	33
References	37
CHAPTER 2: Scope of the Thesis	44-47

CHAPTER 3: Experimental Techniques	48-54
3.1 Absorption spectra	48
3.2 Fluorescence spectra	48
3.3 Fluorescence Lifetime Measurement	48
3.4 Laser flash photolysis	50
3.5 MF effect on triplet non-fluorescent species	52
3.6 Materials	52
3.7 Preparation of micelles	54
CHAPTER 4: Interaction of quinones with small organic amine bases	55-85
4.1 Introduction	55
4.1.1 Reaction scheme and the spin dependent phenomenon	58
4.1.2 Measurement of quantum yield	59
4.2 Results and Discussion	60
4.2.1 Studies with AQ	60
4.2.1.1 Steady – state measurements	60
4.2.1.2 Laser flash photolysis: Acetonitrile medium	62
4.2.1.3 Laser flash photolysis: SDS medium	66
4.2.2 Studies with MQ	72
4.2.2.1 Laser flash photolysis: Acetonitrile medium	72
4.2.2.2 Laser flash photolysis: SDS medium	76
4.3 Conclusion	82
References	84

CHAPTER 5: Interaction of quinones with a purine DNA base adenine and

its nucleoside 2'-deoxyadenosine 86-113

5.1 Introduction	86
5.2 Results and Discussion	88
5.2.1 Studies with MQ	88
5.2.1.1 Laser flash photolysis: Acetonitrile/water medium	88
5.2.1.2 Laser flash photolysis: SDS medium	91
5.2.1.3 Magnetic field effect	94
5.2.2 Studies with AQ	96
5.2.2.1 Laser flash photolysis: Acetonitrile/water medium	96
5.2.2.2 Laser flash photolysis: SDS medium	98
5.2.2.3 Magnetic field effect	100
5.2.3 Mechanism of action	102
5.3 Conclusion	109
References	111

CHAPTER 6: Interaction of quinones with purine DNA base guanine and its

nucleoside 2'-deoxyguanosine hydrate 114-136

6.1 Introduction	114
6.2 Results and Discussion	116
6.2.1 Studies with MQ	116
6.2.1.1 Laser flash photolysis: Acetonitrile/water medium	116
6.2.1.2 Laser flash photolysis: SDS medium	118
6.2.1.3 Magnetic field effect	122
6.2.2 Studies with AQ	126

6.2.2.1 Laser flash photolysis: Acetonitrile/water medium	126
6.2.2.2 Laser flash photolysis: SDS medium	128
6.3 Conclusion	133
References	135

**CHAPTER 7: Interaction of quinones with a pyrimidine DNA base thymine
and its nucleoside thymidine 137-149**

7.1 Introduction	137
7.2 Results and Discussion	138
7.2.1 Studies with MQ	138
7.2.1.1 Laser flash photolysis: Acetonitrile/water medium	138
7.2.1.2 Laser flash photolysis: SDS medium	139
7.2.2 Studies with AQ	143
7.2.2.1 Laser flash photolysis: Acetonitrile/water medium	143
7.2.2.2 Laser flash photolysis: SDS medium	144
7.3 Conclusion	148
References	149

**CHAPTER 8: Interaction of quinones with pyrimidine DNA base cytosine
and its nucleoside cytidine 150-169**

8.1 Introduction	150
8.2 Results and Discussion	152
8.2.1 Studies with MQ	152

8.2.1.1 Laser flash photolysis: Acetonitrile/water medium	152
8.2.1.2 Laser flash photolysis: SDS medium	153
8.2.1.3 Magnetic field effect	158
8.2.2 Studies with AQ	160
8.2.2.1 Laser flash photolysis: Acetonitrile/water medium	160
8.2.2.2 Laser flash photolysis: SDS medium	161
8.2.2.3 Magnetic field effect	164
8.3 Conclusion	167
References	168

CHAPTER 9: Interaction of quinones with pyrimidine DNA base uracil, I, 3-dimethyl uracil and the nucleoside uridine **170-196**

9.1 Introduction	170
9.2 Results and Discussion	171
9.2.1 Studies with MQ	171
9.2.1.1 Laser flash photolysis: Acetonitrile/water medium	171
9.2.1.2 Laser flash photolysis: SDS medium	178
9.2.2 Studies with AQ	184
9.2.2.1 Laser flash photolysis: Acetonitrile/water medium	184
9.2.2.2 Laser flash photolysis: SDS medium	186
9.3 Conclusion	192
References	194

CHAPTER 10: Interaction of quinones with nucleoside 5'-monophosphates

197-218

10.1 Introduction	197
10.2 Results and Discussion	199
10.2.1. Laser flash photolysis: Acetonitrile/water medium	199
10.2.2 Laser flash photolysis: SDS medium	205
10.3 Conclusion	215
References	217

CHAPTER 11: A comparative study of the quinones with the DNA bases

219-229

11.1 Introduction	219
11.2 Results and Discussion	220
11.3 Conclusion	226
References	228
